A Valuable Work. THE CENTENNIAL HISTORY OF THE UNI TED STATES, from the discovery of the

American Continent to the close of the First Century of American Independence. By James D. McCabe. Author of "A Manual of General History," "Pathways to the Holy Land," etc., There has long been a great and universally-felt want of a history of the United States suitable for general use.

This want is now being supplied by the National Publishing Co., of Philadelphia, who have issued a handsome volume, styled "The Centennial History of the United States," by James D. Mc-Cabe, a well-known historical writer. This work will, undoubtedly, take rank as the standard history of the United States. It is no dry mass of details—no bombastic effort to inflame the national pride, but is a clear, vivid and brilliant narrative of the events of our history, from the discovery of the American Contiuent down to the present time.

We most heartily commend this book to our readers. It gives a very interesting account of the Indians of North America, from the time of the coming of the white men. The voyage of Columnations of Europe and the wanderings of the Spaniards in search of gold and immortal youth, are told with graphic

impartiality of a historian, and pleads states facts, points out the lessons which they teach, and appealing to neither passion nor political feeling, trusts to the good sense of his countrymen to sustain his views. In order to render the work complete in every respect, the author has added to it an appendix, giving an account of the approaching international Centennial exhibition.

It is comprised in one large, handsome octavo volume of 925 pages, and contains 442 engravings on steel and wood of historical personages and scenes. The price is so low that all can afford to purchase a copy, and each subscriber is presented with a superb lithographic engraving of the Centennial exhibition uildings and grounds. The book is sold by subscription only, and the publishers want agents in every county. See advertisement in another column.

Extraordinary Enterprise.

Frank Leslie, the publisher of eighteen illustrated newspapers and magazines, has just added to the list his New Popular Monthly, a marvel of elegance and cheapness. It is nearly double the size of any magazine published, each number containing one hundred and twenty-eight quarto pages, eighty fine illustrations, a beautiful chromo lithograph frontispiece, and is brim full of choice literature. We name as a few of the admirable articles in the first number—one completely illustrating Co., New York, as there are many imitations and describing the Centennial exhibition at Philadelphia also "Degrading less. - Com. Punishment of Women," illustratedan interesting sketch of the life and assassination of Marat, the French revo-Intionist, with portrait-the different modes of fire producing among the aborigines, illustrated — biographical sketch and portrait of the great millionaire, Wm. B. Astor, and view of Astor library. Among the excellent stories Night," by Etta W. Pierce,

of 75,000 copies a success never before cared tory for this successful magazine. An elegant chromo is given as premium. Write at once for terms. *

Philip Nolan and his Career. Philip Nolan, the story of whose life is being published in Scribner's Monthwas of Irish descent. He resided in Natchez, Miss. A lover of adventure, and always willing to brave danger and look death in the eye, he organized a Rye State...... sented to the baron of Carondelet at the

A short time after Nolan was suspected of being an agent of General Wilkinson, and he was persecuted by Gayoso de Lemus, the successor of the kind and benevolent baron.
The Spaniards, who at that time were in possession of both Louisiana and

Texas, caused a vigorous war to be Butto made against Nolan, and he fell gallantly at the head of his Spartan band, at a place between the waters of the Navasoto One of his companions-Blackburn, of Philadelphia—was executed at Chi-

years. So says a New Orleans paper.

No Sign. - A grocer in has been doing business for nearly fifty years, and has no sign to designate his place of business, gives as his reason for the omission, that all his old friends know where to find him, and the balance would either come for money or to get credit, and as he has no desire to see either of these classes, he prefers to re-main as he is, even though "a wicked and perverse generation may seek for a

Metzler & Co., the most extensive dealers in reed instruments in London, pronounce the Mason & Hamlin "the finest reed instrument in the world. Augustus L. Tamplin and Chevalier emmens, the famous harmonium players, are using these organs at their Lon don concerts.

These are fine compliments for our fa mous American makers, upon which we congratulate them, adding that they are thoroughly deserved.—New York Philharmonic Journal.

The great revivalists, Messrs. Moody an Sankey, who electrified staid old England ples of American genius. Springing from among the common people, their sympathic are alive to the wants of the whole people, at herein lies the secret of the whole people, and herein lies the secret of their great success. Those who seek to be popular must study and be familiar with the wants of the masses, and prove loyal thereto. To this fact we may trace the grand success in business, as well as in re ligious undertakings, which many America have achieved. Strikingly illustrative of the Every step of our colonial history is traced with patient fidelity, and the sources of those noble, and we trust, suggestions is that great establishment, located enduring institutions which have made at Buffalo, N. Y., and known as the "World's Union; the course of affairs until the known that there is scarcely a hamlet in breaking out of the second war with land in which his name is not familiar. England; and a full and comprehensive account of that war and its results. The that contest to the commencement of the civil war, follow in their order. The his enthusiasm is multiplied by the unparallelled success of his enterprise, as well as by history of the civil war is related with the efficacy of his remedies in curing disease intense vigor, and with a strict fidelity The people believe in him and his remedies, to truth: and the work closes with an because, as the New York Trause says, "he account of the course of affairs since the sympathizes with them in all their afflictions, end of that great conflict. The author efforts and attainments." Hence, Dr. Pierce's writes throughout with the calmness and ly employed as a blood and liver medicine, and worthless, humbug nostrums, but for all diseases and weaknesses peculiar to women i has proved itself so much of a specific that i now enjoys great popularity and universal confidence. Dr. Pierce's Piessant Purgative Pellets, "scarcely larger than mustard seed, have proved so agreeable and reliable as cathartic that they are rapidly taking the place of the large, nauseous pills here to fore so much in use; while his Compound Extract of Smart Weed is a favority remedy for colic, cramps, summer complaint, diarrhes, dysenter cholera, and cholera morbus, and also as a lin

ment. Of Dr. Sage's Catarrh Remedy, an Dr. Pierce's Nasal Douche, little need be said as they are known everywhere as the greates specifics for catarrh and "cold in the head" has as a physician. His Common Sense Medi-cal Adviser, a book of 900 pages, which he sells at the unparalleled low price of \$1.50, has already been sold to the extent of exhausting two editions, amounting to forty thousand copies. The secret of Dr. Pierce's success, as well as that of the great revivalists, and scores of other Americans, who by their genius have advanced step by step from obscurity to afflu-ence and distinction, consists in treating the people with consideration, sympathy, candor and honesty. No man, who hopes to attain either wealth or distinction, can afford to deal unfairly with the world or be indifferent to the
